BASIC EFFORTLESS™ HEADPHONE USAGE

Assemble charging mechanism (micro-USB into Effortless™ base*, USB into wall adapter**) and plug USB adapter into wall outlet. Your Effortless™ base will have a solid orange light indicating that it is ready to be used.

**CHARGING INSTRUCTIONS**

1. Assemble charging mechanism (micro-USB into Effortless™ base*, USB into wall adapter**) and plug USB adapter into wall outlet. Your Effortless™ base will have a solid orange light indicating that it is ready to be used.

2. Lay your Effortless™ headband on the base with the module inside, buttons facing down, and the plugs in opposite directions.

3. Once the speakers are removed, you can machine-wash the headband.

4. Reinsert one speaker at a time, and move each about four inches from the hook and loop opening on either side of the headband.

• Right speaker has red stitching
• Left speaker has green stitching
• Softer gray side should face towards the ear
• White side should face away from the ear

Then insert the Bluetooth® module into the headband and close the hook and loop opening.

PAIRING YOUR EFFORTLESS™ HEADPHONES

1. Remove the Bluetooth® module from the hook and loop opening at the back of the headband.

2. Hold down the square button for 5 seconds until you hear ascending tones through the speakers followed by a series of double beeps and a fast blinking red light. Must be within 3 feet (1 meter) of your device.

3. On your device, make sure Bluetooth® is turned on. Look for 'ACOUSTICHEEP' and select to pair. Pairing may take up to 30 seconds.

4. When disconnecting the cord, grasp and pull the plug and not the cord.

5. Do not leave components in a wet or dirty headband.

6. Wash your headband regularly (remove all components before washing).

PROLONG THE LIFE OF YOUR HEADPHONES

- Inserting the micro-USB into the base upside down could damage it and prevent it from charging.
- Use only the cable and wall adapter provided.

**WASHING INSTRUCTIONS**

1. Open the hook and loop at the back of the headband to reveal the speaker components inside the headband.

2. Remove the Bluetooth® module and then reach in to remove the speakers, one at a time.

3. Reinsert one speaker at a time, and move each about four inches from the hook and loop opening on either side of the headband.

4. Reinsert one speaker at a time, and move each about four inches from the hook and loop opening on either side of the headband.

5. When disconnecting the cord, grasp and pull the plug and not the cord.

6. Do not leave components in a wet or dirty headband.

7. Wash your headband regularly (remove all components before washing).
Troubleshooting

Not sure if Fully Charged? Refer to “Effortless” LEDs chart.

Unable to Pair for the First Time?
When you turn on the module, a series of beeps will sound followed by a combination of long and short beeps. Press and hold the power button for 7 seconds to reset the module. The module must be turned off and then turned back on for it to enter into pairing mode.

Unable to Pair if Bluetooth® enabled device is unable to pair with the Bluetooth® module, you may need to reset the module and/or your device. To reset the Bluetooth® module, turn it on then hold both the “up” and “down” arrow buttons down for 7 seconds. Once the reset function is complete, there should be 2 long tones. The Bluetooth® module must be turned off and then turned back on for it to enter into pairing mode.

Unable to Find Device while Pairing?
If your paired Bluetooth® device was previously paired with another device, it will automatically pair with that device if the device is within range. To pair with a new device, you may need to reset the module if the device was previously paired with another device, it will maintain a paired connection with the other device.

Unable to hear Bluetooth® audio player and speakers towards the ear) to position them over your ears.

When you turn on the module, a series of beeps will sound followed by a combination of long and short beeps. Press and hold the power button for 7 seconds to reset the module. The module must be turned off and then turned back on for it to enter into pairing mode.

To reset the module, you may need to reset the module if the device was previously paired with another device, it will maintain a paired connection with the other device.

WARNING: Exposure to high volume sound levels may damage your hearing. If you experience hearing loss, see your doctor.

TROUBLESHOOTING

To pair with a new device, you may need to reset the module if the device was previously paired with another device, it will maintain a paired connection with the other device.

WARRANTY INFORMATION AND LEGAL DISCLOSURES

BATTERY
The Bluetooth® Wireless Headphones with Induction Charging system contains a rechargeable lithium ion battery. It should only be charged with the charging cable and adapter provided with this product. Lithium ion batteries have a limited life and will need to be fully discharged before recharging. AcousticSheep® provides a battery replacement and can be ordered from the warranty information and legal disclosures page of our website. If you attempt to open or replace the battery yourself, the Bluetooth® module will be voided.

WARNING: The Bluetooth® Wireless Headphones with Induction Charging may be a transitory condition. They should not be used by children, the elderly, or by anyone who may stifle the cord.

WARNING: Use of a headset that covers both ears will impair your ability to hear other warning sounds. This may create a serious hazard to you and others, and is illegal in most states and regions.

WARNING: Exposure to high volume sound levels may damage your hearing. You may experience hearing loss if using your headset or headphones at high volume levels for extended periods of time. If you experience hearing loss, see your doctor.

To protect your hearing, hearing experts suggest that you:

• Set the volume control in a low position before putting your headset or headphones on your ears and use them at the lowest possible volume.

• When a conversation is noisy, you may need to turn up the volume. If you do, limit the amount of time you use your headset or headphones at high volume levels.

• Turn the volume down if the sound from the headset or headphones makes your hearing inadaptable.

• Have your hearing checked by your doctor.

To turn on hearing, hearing experts suggest that you:

• Avoid turning up the volume to block out noisy surroundings. Whenever possible, use other forms of entertainment.

• Limit the amount of time you use your headset or headphones at high volume levels.

• Increase the separation between the equipment and receiver.

• Reorient or relocate the receiving antenna.

• Consult the dealer or an experienced radio/TV technician for help.
